## 👤 PROFILE

A Computer Science and Engineering undergraduate at VIT Chennai, with a strong interest in Artificial Intelligence and Machine Learning. I am a dedicated and enthusiastic learner with a passion for exploring emerging technologies, solving real-world challenges, and developing innovative projects. Outside the academic and technical sphere, I am an avid sports follower—particularly Formula 1—a movie and web series enthusiast, and a food lover who enjoys discovering diverse culinary experiences. I strive to combine technical acumen with creativity and a human-centered approach, continuously aiming for personal and professional growth.

## 📁 PROJECTS

### Fantasy Premier League Analytics Hub 🔗

07/2025 – 10/2025

**Fantasy Premier League Analytics Hub** is an automated dashboard using **Python**, **XGBoost**, and **GitHub Actions**. It features a full CI/CD pipeline that runs daily to fetch live FPL data, retrain 5 ML models, and deploy new predictions. The **HTML/Tailwind/JS** frontend includes player comparisons, watchlists, and a visual squad builder.

### Urban Escapade 🔗

12/2024 – 05/2025

**Urban Escapade** is a responsive, map-based website built with **HTML**, **CSS**, **JavaScript**, and **Firestore**. It showcases India's diversity with features like secure login, interactive maps, real-time weather, and nearby transport information for an engaging educational experience.

### AnomLogBert 🔗

12/2024 – 07/2025

**AnomLogBert** is a transformer-based anomaly detection framework using **Sentence-BERT** and a custom neural network for system logs. It achieves up to **99.95% accuracy** and supports unlabeled logs, real-time threat detection, and is optimized for BGL and Linux datasets.

### AI YouTube Video Title & Description Generator 🔗

05/2025 – 07/2025

**AI YouTube Video Title & Description Generator** is an AI-powered tool built with **Python** and **Gradio** that generates engaging titles and descriptions from video scripts. It provides a simple interface for content creators to enhance their YouTube reach. Try the live demo 🔗 or view the source code 🔗 on GitHub.

## 🎓 EDUCATION

### Bachelors in Technology, Vellore Institute of Technology

08/2023 – 05/2027 | Chennai, Tamil Nadu, India

Pursuing my Computer Science Engineering with Specialization in Artificial Intelligence & Machine Learning.

### 12th, Deogiri College

06/2021 – 05/2023

Chhatrapati Sambhajnagar, Maharashtra, India

Completed my secondary schooling

### 10th, Cambridge School

06/2011 – 03/2021

Chhatrapati Sambhajnagar, Maharashtra, India

Completed my primary schooling from 1st - 10th

## 📜 CERTIFICATES

### GEN AI Usin IBM Watsonx 🔗

Completed through Adroit Technologies, VIT & IBM

### Python in Excel 🔗

Completed using LinkedIn Learning

### Python Essential Training 🔗

Completed using LinkedIn Learning

### Python Course from Kaggle 🔗

Completed using Kaggle Learning

### Pandas Course from Kaggle 🔗

Completed using Kaggle Learning

## 🧠 SKILLS

### Python

Basics

● ● ● ● ●

### C

Most practiced

● ● ● ● ●

### C++

Used to C++

● ● ● ● ●

### Java

Most liked

● ● ● ● ●

### HTML

Made few small websites

● ● ● ● ●

### CSS

Good in designing

● ● ● ● ●

### JavaScript

Made few small projects

● ● ● ● ●

### ReactJS

Basics

● ● ● ● ●

### SQL

Familiar basic & intermediate level

● ● ● ● ●
